PLXNA2 Polyclonal Antibody

Catalog No. E-AB-13521

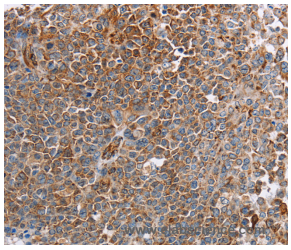

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

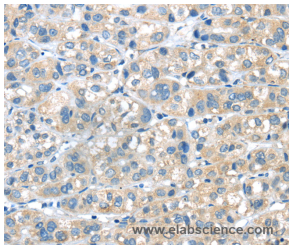

Reactivity	Human,Mouse
Immunogen	Synthetic peptide of human PLXNA2
Host	Rabbit
Isotype	IgG
Purification	Affinity purification
Conjugation	Unconjugated
Buffer	PBS with 0.05% sodium azide and 50% glycerol, PH7.4

Applications	Recommended Dilution
IHC	1:50-1:200

Data

Immunohistochemistry of paraffin-embedded Human ovarian cancer tissue using PLXNA2 Polyclonal Antibody at dilution 1:40

Immunohistochemistry of paraffin-embedded Human liver cancer tissue using PLXNA2 Polyclonal Antibody at dilution 1:40

Preparation & Storage

Storage	Store at -20℃. Avoid freeze / thaw cycles.

Background

This gene encodes a member of the plexin-A family of semaphorin co-receptors. Semaphorins are a large family of secreted or membrane-bound proteins that mediate repulsive effects on axon pathfinding during nervous system development. A subset of semaphorins are recognized by plexin-A/neuropilin transmembrane receptor complexes, triggering a cellular signal transduction cascade that leads to axon repulsion. This plexin-A family member is thought to transduce signals from semaphorin-3A and -3C.
